

THE COLONEL'S CORNER

It's as Simple as A Paycheck

Our team was recently interviewed as part of a documentary showing the good things Salute does to help homeless Veterans. The film crew from the Veteran's Administration visited one of our Veteran's home, his work place and they also talked with him about his experience.

There were no dry eyes as they heard his story and I am so proud of what Salute has accomplished, so far, to help these heroes get back on their feet. But there is much more that we can do with the help of others.

There were no
dry eyes as they
heard his story...

When the documentary airs we will be posting it to [our website](#) and hope to have others repost it and help spread the story.
